**Sistema mejorado que protege la calidad de tus instalaciones**

Llegó a México la evolución en sistemas de tuberías para agua caliente y fría.

## FlowGuard®
## PLUMBING SYSTEMS

- Color azul resistente a la intemperie, no hace falta pintar tuberia.
- Conexiones alineables reforzadas para instalaciones profesionales.
- Cemento Detecta-Fallas, hace tu trabajo seguro y confiable.
- Mayor resistencia a la temperatura y presión (hasta 9kg a 82°C en SDR 11)

## ¿POR QUÉ FUNCIONA NUESTRO SISTEMA?

Es un sistema dual que mantiene dos recipientes para lograr un mayor control de calidad y un resultado óptimo en la calidad de agua obtenida.

**RECIPIENTE 1**
Bloquea sedimentos y contaminantes de mayor tamaño

**RECIPIENTE 2**
Bloquea pequeñas partículas y sustancias dañinas

# TRICAPA ANTI-ALGAS

**TRICAPA significa, 3 capas**
de calidad, integridad y protección

ECOTANKE TRICAPA

Los Tanques Tricapa son fabricados con una combinación de Polietilenos de media densidad, otorgándoles alta resistencia mecánica y fuerza estructural, resistencia UV (ultravioleta) superior y presentación estética.

Estos Tanques cuentan con:

- Una capa exterior de color, tradicionalmente azul o blanco, con tratamiento UV para retener brillo en el producto a lo largo de su vida útil.
- Una capa intermedia negra, para impedir totalmente la transmisión de luz y evitar la proliferación de las Algas.
- Una capa interior blanca, con aprobación de la FDA (Food & Drug Administration de los EEUU), para asegurar una cámara interna higiénica.
